

Bright Country Golf Club Inc

Strategic Plan; 2022 - 2027

Our Mission Statement

- The Bright Country Golf Club will provide a welcoming and an inclusive environment, for members, their families and visitors based on its long tradition of friendly service, hospitality and enjoyment:
- Our course will be maintained in excellent condition and provide a rewarding enjoyable and a challenging test for golfers of all standards.
- Our clubhouse will be a hub of activity both before and after golf, and a destination in itself.
- Our environment will continue to offer a beautiful riverside location and a home for many species of native birds and trees.
- Our staff will enjoy a supportive and engaging work environment and be committed to outstanding customer service.
- Our governance, administration and golf operations will be of the highest standard.
- Our Club will be known in the wider community as a good corporate citizen, for the quality of our facilities, service and friendly atmosphere and within the golfing community as a progressive leader.

Our Values

- We want all our members, visitors and staff to feel welcome, respected and included.
- We care about maintaining a positive and enjoyable golf, social and work experience. We encourage fellowship and camaraderie amongst members and promote family participation.
- We have respect for others, our beautiful riverside golf course and we care about being good stewards of the land.
- We are progressive and forward thinking and use our resources wisely to ensure long-term success and sustainability.
- We are proud of our Club, its history and its traditions.
- We promote good sportsmanship and keen competition.

The Bright Country Golf Club

The Bright Country Golf Club is located on the Back Porepunkah Road between Bright and Porepunkah. The club provides modern facilities for members including, bar, pro shop and recreational areas. The course is a par 72 layout taking advantage of the natural environment and offering challenges to every facet of the game.

Any future works proposed on the course will make reference to the Course Development Plan – 2009 prepared by the Bright Golf Course designer – Mr Tony Cashmore. The report is an excellent guide for the continued progress of the Bright Country Golf Club and should be referred to on a regular basis.

The Bright Country Golf Club is responding to the needs of an aging membership by continuing to support the use of carts on the course. A Storage shed is now provided for members to securely store their carts at modest annual charges designed to cover the cost of electricity and to provide a small fund to meet the progressive upgrade of cart paths around the course.

Inside the club house work continues on providing members with the most modern facilities and opportunities for relaxation and recreation. The continued raffles and fun nights provide members with immediate access and are helping to provide a valuable income stream for the club. The club is very grateful for the continued support of our ladies group providing members with a particularly high standard of food on a regular basis and also offering gourmet catering for functions and golf days.

Long term financial sustainability is one of the biggest challenges faced by the club. The competition for dollars continues to mount and the club is very reliant on a loyal but aging membership.

Support for the development of juniors and the attraction of new members to the club and the course is a feature of this plan. Operating within a restricted staff structure and relying heavily on a wonderful volunteer program both inside the clubhouse and on the course has enabled the club to stabilize its financial position.

This plan contains strategies for the continuation of that process over the next four years and includes utilizing the funds from subdivision development. The club operates within its constitution and articles of association and the legislation including the Registered Clubs Act. The management team is led by a board of very competent directors who have a vision for the future and are committed to the long term success of the club

The Presidents Message

Dear Members,

STRATEGIC PLAN 2022-2027

It is with pleasure that we enclose our Strategic Plan, which has been developed over the last few months.

The Committee has concentrated on a five year planning period and the circumstances likely to be within our control over that period. Having said that we will remain agile and alert to changing conditions and opportunities, which may arise during this period.

Our overriding emphasis has been and will be to foster a club atmosphere of friendship, civility and respect, so that all members enjoy and value their membership. This of course is the joint responsibility of not only the Committee, but all of us and requires the commitment and goodwill of all of us.

We are all aware of the pervading operating environment for private golf clubs and the financial pressures which a number of private golf clubs are experiencing. Your Committee is confident that our Club can survive and prosper into the future. Our confidence is based on the belief in the ability of our Club to maintain and refresh its membership. In order to do this, the Club's course and facilities must be first rate, so as to be the Club of first choice in the area.

The Club is in a unique location, in a beautiful environment and our focus has been to improve the playing conditions to make it a stand out course for prospective members. We believe this will be achieved in the near term. With the consolidation of the recent course works, the course should continue to improve in years to come.

We are in the process of developing a Master Plan for the Bright Country Golf Club and the Club House and its environs which may, if necessary, be completed in stages, but when completed should satisfy the members' aspirations.

We hold reasonable reserves and believe that we can prudently manage our finances to ensure that the Club does not go into debt in order to achieve much of the work contemplated by the Master Plan during the strategic planning period.

We thank the sub-committee for its work in developing the Strategic Plan and for its ongoing work in the necessary revision of our Constitution. We thank also those of you who provided input following the release of the draft Strategic Plan to the Membership.

There are exciting times ahead!
